

## FIREFIGHTERS' ADVICE

# ON HOW TO BEHAVE DURING FIRE SUPPRESSION

The Croatian Firefighting Association strictly warns against discarding cigarette butts, barbecuing, or lighting any kind of fire in open areas.

IF YOU NOTICE  
A FIRE, CALL  
THE FIRE  
DEPARTMENT  
AT 193 OR THE  
112 CENTER

- In the event of a fire, do not put yourself in danger or obstruct firefighting efforts by approaching the scene to watch, take photos, or film the fire and suppression activities.

- The use of drones in areas where firefighting aircraft are operating poses a direct threat to the safety of both aerial and ground crews.
- Aircrews will immediately suspend flight operations upon detecting a drone in their activity zone.
- This will hinder efforts to contain the fire and endanger human lives.
